

1 Cut wood for sides to length:

A	back legs	2 off	length: 830 mm
B	front legs	2 off	length: 460 mm
C	top horizontal side	2 off	length: 470 mm
D	lower horizontal side	2 off	length: 454 mm
E	side diagonal	2 off	length: 538 mm

Assemble sides:

- lay wood out on 1:1 scale drawing
- fix together with screws
(pre-drill a hole through the softwood to prevent it from splitting)

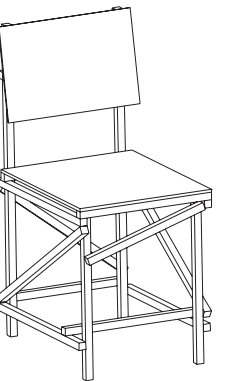

5 Fold blanket to size: ±110 x 40 cm.
Strap blanket to frame.

materials: 1"x1" softwood,
or similar wood
12 mm OSB plywood,
32 screws No. 8 x 1 1/2"
blanket
strapping material

tools: saw
3 mm drill
screwdriver
pencil
tape measure

4 Cut wood for seat and back-rest:
seat: 450 x 380 mm
back: 250 x 380 mm

Screw seat and back to frame.

2 Lay assembled sides on 1:1 scale drawing and mark the positions of the front and back horizontals:
F G H I J

Cut wood for front and back horizontals:

F	1 off	380 mm
G	1 off	380 mm
H	1 off	380 mm
I	1 off	380 mm
J	1 off	340 mm

Stand the 2 assembled sides up and fix the front and back horizontals on the marked positions. Use screws.

3 Cut wood for front and back diagonals:
K 1 off 440 mm
L 1 off 350 mm

Make sure the frame is standing straight on a flat surface.
Fix front and back diagonals to frame.
